SEC. 5511. FINDINGS AND STATEMENT OF POLICY.

(a) FINDINGS.—Congress finds the following:

(1) Advancing peace and stability in the Indo-Pacific has been a central element of United States foreign policy toward the region.

(2) The Government of the People’s Republic of China (PRC), especially since the election of Tsai Ing-Wen in 2016, has conducted a coordinated campaign to weaken Taiwan diplomatically, economically, and militarily in a manner that threatens to erode United States policy and create a fait accompli on questions surrounding Taiwan’s future.

(3) To secure United States interests and preserve the ability of the people of Taiwan to determine their own future, it is necessary to reinforce Taiwan’s diplomatic, economic, and territorial space.

(b) STATEMENT OF POLICY.—It is the policy of the United States to—

(1) maintain the position that peace and stability in the Western Pacific are in the political, security, and economic interests of the United States, and are matters of international concern; and

(2) work with allies and partners to promote peace and stability in the Indo-Pacific and deter military acts or other forms of coercive behavior that would undermine regional stability.

SEC. 5512. SENSE OF CONGRESS ON TAIWAN DEFENSE RELATIONS.

It is the sense of Congress that—

(1) the Taiwan Relations Act (Public Law 96–8; 22 U.S.C. et seq.) and the Six Assurances provided by the United States to Taiwan in July 1982 are the foundation for United States-Taiwan relations;

(2) as set forth in the Taiwan Relations Act, the United States decision to establish diplomatic relations with the People’s Republic of China rests upon the expectation that the future of Taiwan will be determined by peaceful means, and that any effort to determine the future of Taiwan by other than peaceful means, including boycotts and embargoes, is of grave concern to the United States;

(3) the increasingly coercive and aggressive behavior of the People’s Republic of China toward Taiwan is con-

trary to the expectation of the peaceful resolution of the future of Taiwan;

(4) as set forth in the Taiwan Relations Act, the capacity to resist any resort to force or other forms of coercion that would jeopardize the security, or the social or economic system, of the people on Taiwan should be maintained;

(5) the United States should continue to support the development of capable, ready, and modern defense forces necessary for Taiwan to maintain sufficient defensive capabilities, including by—

(A) supporting acquisition by Taiwan of defense articles and services through foreign military sales, direct commercial sales, and industrial cooperation, with an emphasis on capabilities that support an asymmetric strategy;

(B) ensuring timely review of and response to requests of Taiwan for defense articles and services;

(C) conducting practical training and military exercises with Taiwan that enable Taiwan to maintain sufficient defensive capabilities, as described in the Taiwan Relations Act;

(D) exchanges between defense officials and officers of the United States and Taiwan at the strategic, policy, and functional levels, consistent with

the Taiwan Travel Act (Public Law 115–135; 132 Stat. 341), especially for the purposes of—

(i) enhancing cooperation on defense planning;

(ii) improving the interoperability of the military forces of the United States and Taiwan; and

(iii) improving the reserve force of Taiwan;

(E) cooperating with Taiwan to improve its ability to employ military capabilities in asymmetric ways, as described in the Taiwan Relations Act; and

(F) expanding cooperation in humanitarian assistance and disaster relief; and

(6) the United States should increase its support to a free and open society in the face of aggressive efforts by the Government of the People’s Republic of China to curtail or influence the free exercise of rights and democratic franchise.

PART 3—INCLUSION OF TAIWAN IN INTERNATIONAL ORGANIZATIONS

SEC. 5516. FINDINGS.

Congress makes the following findings:

(1) Since 2016, the Gambia, Sao Tome and Principe, Panama, the Dominican Republic, Burkina Faso, El Salvador, the Solomon Islands, and Kiribati have severed diplomatic relations with Taiwan in favor of diplomatic relations with China.

(2) Taiwan was invited to participate in the World Health Assembly (WHA), the decision-making body of the World Health Organization (WHO), as an observer

annually between 2009 and 2016. Since the 2016 election of President Tsai, the PRC has increasingly resisted Taiwan's participation in the WHA. Taiwan was not invited to attend the WHA in 2017, 2018, 2019, 2020, or 2021.

(3) The Taipei Flight Information Region reportedly served 1,750,000 flights and 68,900,000 passengers in 2018, and is home to Taiwan Taoyuan International Airport, the eleventh busiest airport in the world. Taiwan has been excluded from participating at the International Civil Aviation Organization (ICAO) since 2013.

(4) United Nations (UN) General Assembly Resolution 2758 does not address the issue of representation of Taiwan and its people at the United Nations, nor does it give the PRC the right to represent the people of Taiwan.

SEC. 5517. SENSE OF CONGRESS ON TAIWAN'S MEANINGFUL PARTICIPATION IN THE INTERNATIONAL COMMUNITY.

It is the sense of Congress that—

(1) Taiwan is an important contributor to the global community, as a model for democracy, and by providing expertise in global health, international aviation security, emerging technology development, and high environmental standards;

(2) multiple United States Government administrations of both political parties have taken important steps to advance Taiwan's meaningful participation in international organizations;

(3) existing efforts to enhance United States cooperation with Taiwan to provide global public goods, including through development assistance, humanitarian assistance, and disaster relief, in trilateral and multilateral fora are laudable and should continue;

(4) nonetheless, significant structural, policy, and legal barriers remain to advancing Taiwan's meaningful participation in the international community; and

(5) efforts to share Taiwan's expertise with other parts of the global community could be further enhanced through a systematic approach, along with greater attention from Congress and the American public to such efforts.

SEC. 5518. STRATEGY TO SUPPORT TAIWAN'S MEANINGFUL PARTICIPATION IN INTERNATIONAL ORGANIZATIONS.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with other Federal departments and agencies as appropriate, shall submit to the appropriate congressional committees a strategy—

(1) to advance Taiwan’s meaningful participation in a prioritized set of international organizations (IOs); and

(2) that responds to growing pressure from the PRC on foreign governments, IOs, commercial actors, and civil society organizations to comply with its “One-China Principle”, with respect to Taiwan.

(b) MATTERS TO BE INCLUDED.—The strategy required under subsection (a) should include the following elements:

(1) An assessment of the methods the PRC uses to coerce actors to into adhering to its “One-China Principle.” The methods should include those employed against governments, IOs, and civil society organizations. The assessment should also include pressure on commercial actors, to the extent it is relevant in the context of Taiwan’s meaningful participation in IOs.

(2) An assessment of the policies of foreign governments toward the PRC and Taiwan, to identify likeminded allies and partners who might become public or private partners in the strategy.

(3) A systematic analysis of all IOs, as practicable, to identify IOs that best lend themselves to advancing Taiwan’s participation.

(4) A plan to expand economic, security, and diplomatic engagement with nations that have demonstrably

strengthened, enhanced, or upgraded relations with Taiwan, in accordance with United States interests.

(5) A survey of IOs that have allowed Taiwan's meaningful participation, including an assessment of whether any erosion in Taiwan's engagement has occurred within those organizations and how Taiwan's participation has positively strengthened the capacity and activity of these organizations, thereby providing positive models for Taiwan's inclusion in other similar forums.

(6) A list of no more than 20 IOs at which the United States Government will prioritize for using its voice, vote, and influence to advance Taiwan's meaningful participation over the three-year period following the date of enactment of this Act. The list should be derived from the IOs identified in paragraph (3).

(b) PLAN FOR TAIWAN'S MEANINGFUL PARTICIPATION
IN THE INTERNATIONAL CIVIL AVIATION ORGANIZATION.—

The Secretary of State, in coordination with the Secretary of Commerce and the Secretary of Transportation, is authorized—

pressure on the Burmese military to restore Burma to its democratic path; and

Subtitle F—Promotion of Freedom of Information and Countering of Censorship and Surveillance in North Korea

SEC. 5580. SHORT TITLE.

This subtitle may be cited as the “Otto Warmbier Countering North Korean Censorship and Surveillance Act of 2022”.

SEC. 5581. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—Congress makes the following findings:

(1) The information landscape in North Korea is the most repressive in the world, consistently ranking last or near-last in the annual World Press Freedom Index.

(2) Under the brutal rule of Kim Jung Un, the country’s leader since 2012, the North Korean regime has tightened controls on access to information, as well as enacted harsh punishments for consumers of outside media, including sentencing to time in a concentration camp and a maximum penalty of death.

(3) Such repressive and unjust laws surrounding information in North Korea resulted in the death of 22-year-old United States citizen and university student Otto Warmbier, who had traveled to North Korea in December 2015 as part of a guided tour.

(4) Otto Warmbier was unjustly arrested, sentenced to 15 years of hard labor, and severely mistreated at the hands of North Korean officials. While in captivity, Otto Warmbier suffered a serious medical emergency that placed him into a comatose state. Otto Warmbier was comatose upon his release in June 2017 and died 6 days later.

(5) Despite increased penalties for possession and viewership of foreign media, the people of North Korea have increased their desire for foreign media content, according to a survey of 200 defectors concluding that 90 percent had watched South Korean or other foreign media before defecting.

(6) On March 23, 2021, in an annual resolution, the United Nations General Assembly condemned “the long-standing and ongoing systematic, widespread and gross violations of human rights in the Democratic People’s Republic of Korea” and expressed grave concern at, among other things, “the denial of the right to freedom of thought, conscience, and religion . . . and of the rights to freedom of opinion, expression, and association, both online and offline, which is enforced through an absolute monopoly on information and total control over organized social life, and arbitrary and unlawful state

surveillance that permeates the private lives of all citizens”.

(7) In 2018, Typhoon Yutu caused extensive damage to 15 broadcast antennas used by the United States Agency for Global Media in Asia, resulting in reduced programming to North Korea. The United States Agency for Global Media has rebuilt 5 of the 15 antenna systems as of June 2021.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) in the event of a crisis situation, particularly where information pertaining to the crisis is being actively censored or a false narrative is being put forward, the United States should be able to quickly increase its broadcasting capability to deliver fact-based information to audiences, including those in North Korea; and

(2) the United States International Broadcasting Surge Capacity Fund is already authorized under section 316 of the United States International Broadcasting Act of 1994 (22 U.S.C. 6216), and expanded authority to transfer unobligated balances from expired accounts of the United States Agency for Global Media would enable the Agency to more nimbly respond to crises.

SEC. 5582. STATEMENT OF POLICY.

It is the policy of the United States—

(1) to provide the people of North Korea with access to a diverse range of fact-based information;

(2) to develop and implement novel means of communication and information sharing that increase opportunities for audiences in North Korea to safely create, access, and share digital and non-digital news without fear of repressive censorship, surveillance, or penalties under law; and

(3) to foster and innovate new technologies to counter North Korea's state-sponsored repressive surveillance and censorship by advancing internet freedom tools, technologies, and new approaches.

(10) A detailed plan for how the authorization of appropriations under section 5584 will operate alongside and augment existing programming from the relevant Federal agencies and facilitate the development of new tools to assist that programming.

(11) A detailed plan for engagement and coordination with the Republic of Korea, as appropriate, necessary for implementing the objectives of the strategy required by subsection (a), including—

(1) Vladimir Vladimirovich Kara-Murza (referred to in this section as “Mr. Kara-Murza”) has tirelessly worked for decades to advance the cause of freedom, democracy, and human rights for the people of the Russian Federation.

(2) In retaliation for his advocacy, two attempts have been made on Mr. Kara-Murza’s life, as—

(A) on May 26, 2015, Mr. Kara-Murza fell ill with symptoms indicative of poisoning and was hospitalized; and

(B) on February 2, 2017, he fell ill with similar symptoms and was placed in a medically induced coma.

(3) Independent investigations conducted by Bellingcat, the Insider, and Der Spiegel found that the same unit of the Federal Security Service of the Russian Federation responsible for poisoning Mr. Kara-Murza was responsible for poisoning Russian opposition leader Alexei Navalny and activists Timur Kuashev, Ruslan Magomedragimov, and Nikita Isayev.

(4) On February 24, 2022, Vladimir Putin launched another unprovoked, unjustified, and illegal in-

vasion into Ukraine in contravention of the obligations freely undertaken by the Russian Federation to respect the territorial integrity of Ukraine under the Budapest Memorandum of 1994, the Minsk protocols of 2014 and 2015, and international law.

(6) Since February 24, 2022, Mr. Kara-Murza has used his voice and platform to join more than 15,000 citizens of the Russian Federation in peacefully protesting the war against Ukraine and millions more who silently oppose the war.

(7) On April 11, 2022, five police officers arrested Mr. Kara-Murza in front of his home and denied his right to an attorney, and the next day Mr. Kara-Murza was sentenced to 15 days in prison for disobeying a police order.

(8) On April 22, 2022, the Investigative Committee of the Russian Federation charged Mr. Kara-Murza with violations under the law signed on March 5, 2022, for his fact-based statements condemning the invasion of Ukraine by the Russian Federation.

(9) Mr. Kara-Murza was then placed into pretrial detention and ordered to be held until at least June 12, 2022.

Subtitle D—Judicial Security and Privacy

SEC. 5931. SHORT TITLE.

This subtitle may be cited as the “Daniel Anderl Judicial Security and Privacy Act of 2022”.

SEC. 5932. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Members of the Federal judiciary perform the important function of interpreting the Constitution of the United States and administering justice in a fair and impartial manner.

(2) In recent years, partially as a result of the rise in the use of social media and online access to information, members of the Federal judiciary have been exposed to an increased number of personal threats in connection to their role. The ease of access to free or inexpensive sources of covered information has considerably lowered the effort required for malicious actors to discover where individuals live and where they spend leisure hours and to find information about their family members. Such threats have included calling a judge a traitor with references to mass shootings and serial killings, a murder attempt on a justice of the Supreme Court of the United States, calling for an “angry mob” to gather outside a home of a judge and, in reference to a judge

on the court of appeals of the United States, stating how easy it would be to “get them”.

(3) Between 2015 and 2019, threats and other inappropriate communications against Federal judges and other judiciary personnel increased from 926 in 2015 to approximately 4,449 in 2019.

(4) Over the past decade, several members of the Federal judiciary have experienced acts of violence against themselves or a family member in connection to their Federal judiciary role, including the murder in 2005 of the family of Joan Lefkow, a judge for the United States District Court for the Northern District of Illinois.

(5) On Sunday July 19, 2020, an assailant went to the home of Esther Salas, a judge for the United States District Court for the District of New Jersey, impersonating a package delivery driver, opening fire upon arrival, and killing Daniel Anderl, the 20-year-old only son of Judge Salas, and seriously wounding Mark Anderl, her husband.

(6) In the aftermath of the recent tragedy that occurred to Judge Salas and in response to the continuous rise of threats against members of the Federal judiciary, there is an immediate need for enhanced security proce-

dures and increased availability of tools to protect Federal judges and their families.

(b) **PURPOSE.**—The purpose of this subtitle is to improve the safety and security of Federal judges, including senior, recalled, or retired Federal judges, and their immediate family members to ensure Federal judges are able to administer justice fairly without fear of personal reprisal from individuals affected by the decisions they make in the course of carrying out their public duties.

Subtitle C—Reports and Other Matters

SEC. 6521. REPORT ON ASSESSING WILL TO FIGHT.

(a) DEFINITIONS.—In this section:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—

The term “appropriate congressional committees” means the following:

(A) The congressional intelligence committees.

(B) The Committee on Foreign Relations, the Committee on Armed Services, and the Sub-

committee on Defense of the Committee on Appropriations of the Senate.

(C) The Committee on Foreign Affairs, the Committee on Armed Services, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

(2) MILITARY WILL TO FIGHT.—The term “military will to fight” means, with respect to the military of a country, the disposition and decision to fight, act, or persevere as needed.

(3) NATIONAL WILL TO FIGHT.—The term “national will to fight” means, with respect to the government of a country, the resolve to conduct sustained military and other operations for an objective even when the expectation of success decreases or the need for significant political, economic, and military sacrifices increases.

(b) FINDINGS.—Congress finds the following:

(1) According to a study by the RAND corporation, “will to fight” is poorly analyzed and the least understood aspect of war.

(2) In testimony before the Select Committee on Intelligence of the Senate in May 2022, top intelligence officials of the United States indicated that although the intelligence community accurately anticipated Russia’s invasion of Ukraine, the intelligence community did not

accurately assess the will of Ukrainian forces to fight in opposition to a Russian invasion or that the Ukrainian forces would succeed in averting a rapid Russian military occupation of Kyiv.

(3) According to the RAND corporation, the intelligence community estimated that the Afghan government's forces could hold out against the Taliban for as long as 2 years if all ground forces of the United States were withdrawn. This estimate was revised in June 2021 to reflect an intelligence community view that Afghanistan's military collapse could come in 6 to 12 months. In August 2021, the Afghan government fell within days after the ground forces of the United States were withdrawn.

(4) Similarly, the rapid advance of the Islamic State in Iraq and Syria and near-total collapse of the Iraqi Security Forces in 2014 appeared to take the policymakers of the United States by surprise.

(5) The apparent gaps in these analyses had important implications for policy decisions of the United States toward Russia and Afghanistan, and suggest a need for further examination of how the intelligence community assesses a foreign military's will to fight.

(c) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Director of National Intel-

ligence, acting through the National Intelligence Council and in coordination with the heads of the elements of the intelligence community that the Director determines appropriate, shall submit to the appropriate congressional committees a report examining the extent to which analyses of the military will to fight and the national will to fight informed the all-source analyses of the intelligence community regarding how the armed forces and governments of Ukraine, Afghanistan, and Iraq would perform at key junctures.

(d) ELEMENTS.—The report under subsection (c) shall include the following:

(1) The methodology of the intelligence community for measuring the military will to fight and the national will to fight of a foreign country.

(2) The extent to which analysts of the intelligence community applied such methodology when assessing the military will to fight and the national will to fight of—

(A) Afghanistan following the April 2021 announcement of the full withdrawal of the United States Armed Forces;

(B) Iraq in the face of the rapid emergence and advancement in 2014 of Islamic State in Iraq and Syria; and

(C) Ukraine and Russia during the initial phase of the invasion and march toward Kyiv by Russia in February 2022.

(3) The extent to which—

(A) the assessments described in paragraph (2) depended on the observations of personnel of the United States Armed Forces who had trained Afghan, Iraqi, and Ukrainian armed forces; and

(B) such observations reflected any standardized, objective methodology.

(4) Whether shortcomings in assessing the military will to fight and the national will to fight may have affected the capacity of the intelligence community to provide “early warning” about the collapse of government forces in Iraq and Afghanistan.

(5) The extent to which “red teaming” was used to test the assessments described in paragraph (2).

(6) The extent to which dissenting opinions of intelligence analysts were highlighted in final written products presented to senior policymakers of the United States.

(7) The extent to which analysts and supervisors adhered to the policies, procedures, directives, and best practices of the intelligence community.

(8) Recommendations for analyses by the intelligence community going forward to incorporate lessons learned and enhance the quality of future analytical products to more accurately reflect the military will to fight and the national will to fight and improve the capacity of the intelligence community to accurately predict the success or failure of the armed forces of a foreign country.

(e) ANNEX.—In submitting the report under subsection (c) to the congressional intelligence committees, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives, the Director shall also include an accompanying annex, which shall be classified, providing an inventory of the following:

(1) Collection gaps and challenges that may have affected the analysis of the collapse of government forces in Iraq and Afghanistan.

(2) Actions that the Director of National Intelligence has taken to mitigate such gaps and challenges.

(b) **CLASSIFICATION OF ACTIVITY.**—The Secretary may not classify any repair or maintenance activity of a Federal jetty or breakwater carried out under subsection (a) as major rehabilitation of such jetty or breakwater—

(1) if the Secretary determines that—

(A) projected changes in wave action or height, including changes that result from relative sea level change, will diminish the functionality of the jetty or breakwater to meet the authorized purpose of the project; and

(B) such repair or maintenance activity is necessary to restore such functionality; or

(2) if—

(A) the Secretary has not carried out regular and routine Federal maintenance activity at the jetty or breakwater; and

TITLE XCIII—EMBASSY SECURITY AND CONSTRUCTION

SEC. 9301. AMENDMENTS TO SECURE EMBASSY CONSTRUCTION AND COUNTERTERRORISM ACT OF 1999.

(a) SHORT TITLE.—This section may be cited as the “Secure Embassy Construction and Counterterrorism Act of 2022”.

(b) FINDINGS.—Congress makes the following findings:

(1) The Secure Embassy Construction and Counterterrorism Act of 1999 (title VI of division A of appendix G of Public Law 106–113) was a necessary response to bombings on August 7, 1998, at the United States embassies in Nairobi, Kenya, and in Dar es Salaam, Tanzania, that were destroyed by simultaneously exploding bombs. The resulting explosions killed 220 persons and injured more than 4,000 others. Twelve Americans and

40 Kenyan and Tanzanian employees of the United States Foreign Service were killed in the attacks.

(2) Those bombings, followed by the expeditionary diplomatic efforts in Iraq and Afghanistan, demonstrated the need to prioritize the security of United States posts and personnel abroad above other considerations.

(3) Between 1999 and 2022, the risk calculus of the Department impacted the ability of United States diplomats around the world to advance the interests of the United States through access to local populations, leaders, and places.

(4) America's competitors and adversaries do not have the same restrictions that United States diplomats have, especially in critically important medium-threat and high-threat posts.

(5) The Department's 2021 Overseas Security Panel report states that—

(A) the requirement for setback and collocation of diplomatic posts under paragraphs (2) and (3) of section 606(a) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865(a)) has led to skyrocketing costs of new embassies and consulates; and

(B) the locations of such posts have become less desirable, creating an extremely suboptimal nexus that further hinders United States diplomats who are willing to accept more risk in order to advance United States interests.

(c) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the setback and collocation requirements referred to in subsection (b)(5)(A), even with available waivers, no longer provide the security such requirements used to provide because of advancement in technologies, such as remote controlled drones, that can evade walls and other such static barriers;

(2) the Department should focus on creating performance security standards that—

(A) attempt to keep the setback requirements of diplomatic posts as limited as possible; and

(B) provide diplomats access to local populations as much as possible, while still providing a necessary level of security;

(3) collocation of diplomatic facilities is often not feasible or advisable, particularly for public diplomacy spaces whose mission is to reach and be accessible to wide sectors of the public, including in countries with repressive governments, since such spaces are required to

permit the foreign public to enter and exit the space easily and openly;

(4) the Bureau of Diplomatic Security should—

(A) fully utilize the waiver process provided under paragraphs (2)(B) and (3)(B) of section 606(a) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865(a)); and

(B) appropriately exercise such waiver process as a tool to right-size the appropriate security footing at each diplomatic post rather than only approving waivers in extreme circumstances;

(5) the return of great power competition requires—

(A) United States diplomats to do all they can to outperform our adversaries; and

(B) the Department to better optimize use of taxpayer funding to advance United States national interests; and

(6) this section will better enable United States diplomats to compete in the 21st century, while saving United States taxpayers millions in reduced property and maintenance costs at embassies and consulates abroad.

(d) DEFINITION OF UNITED STATES DIPLOMATIC FACILITY.—Section 603 of the Secure Embassy Construction and Counterterrorism Act of 1999 (title VI of division A of appendix G of Public Law 106–113) is amended to read as follows:

“SEC. 603. UNITED STATES DIPLOMATIC FACILITY DEFINED.

“In this title, the terms ‘United States diplomatic facility’ and ‘diplomatic facility’ mean any chancery, consulate, or other office that—

“(1) is considered by the Secretary of State to be diplomatic or consular premises, consistent with the Vienna Convention on Diplomatic Relations, done at Vienna April 18, 1961, and the Vienna Convention on Consular Relations, done at Vienna April 24, 1963, and was notified to the host government as such; or

“(2) is otherwise subject to a publicly available bilateral agreement with the host government (contained in the records of the United States Department of State) that recognizes the official status of the United States Government personnel present at the facility.”.

(e) GUIDANCE AND REQUIREMENTS FOR DIPLOMATIC FACILITIES.—

(1) GUIDANCE FOR CLOSURE OF PUBLIC DIPLOMACY FACILITIES.—Section 5606(a) of the Public Diplo-

macy Modernization Act of 2021 (Public Law 117–81; 22 U.S.C. 1475g note) is amended to read as follows:

“(a) IN GENERAL.—In order to preserve public diplomacy facilities that are accessible to the publics of foreign countries, not later than 180 days after the date of the enactment of the Secure Embassy Construction and Counterterrorism Act of 2022, the Secretary of State shall adopt guidelines to collect and utilize information from each diplomatic post at which the construction of a new embassy compound or new consulate compound could result in the closure or relocation of an American Space that is owned and operated by the United States Government, generally known as an American Center, or any other public diplomacy facility under the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865 et seq.).”.

(2) SECURITY REQUIREMENTS FOR UNITED STATES DIPLOMATIC FACILITIES.—Section 606(a) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865(a)) is amended—

(A) in paragraph (1)(A), by striking “the threat” and inserting “a range of threats, including that”;

(B) in paragraph (2)—

(i) in subparagraph (A)—

(I) by inserting “in a location that has certain minimum ratings under the Security Environment Threat List as determined by the Secretary in his or her discretion” after “abroad”; and

(II) by inserting “, personnel of the Peace Corps, and personnel of any other type or category of facility that the Secretary may identify” after “military commander”; and

(ii) in subparagraph (B)—

(I) by amending clause (i) to read as follows:

“(i) IN GENERAL.—Subject to clause (ii), the Secretary of State may waive subparagraph (A) if the Secretary, in consultation with, as appropriate, the head of each agency employing personnel that would not be located at the site, if applicable, determines that it is in the national interest of the United States after taking account of any considerations the Secretary in his or her discretion considers relevant, which may include security conditions.”; and

(II) in clause (ii), by striking “(ii) CHANCERY OR CONSULATE BUILDING.—”

and all that follows through “15 days prior” and inserting the following:

“(ii) CHANCERY OR CONSULATE BUILDING.—Prior”; and

(C) in paragraph (3)—

(i) by amending subparagraph (A) to read as follows:

“(A) REQUIREMENT.—

“(i) IN GENERAL.—Each newly acquired United States diplomatic facility in a location that has certain minimum ratings under the Security Environment Threat List as determined by the Secretary of State in his or her discretion shall—

“(I) be constructed or modified to meet the measured building blast performance standard applicable to a diplomatic facility sited not less than 100 feet from the perimeter of the property on which the facility is situated; or

“(II) fulfill the criteria described in clause (ii).

“(ii) ALTERNATIVE ENGINEERING EQUIVALENCY STANDARD REQUIREMENT.—

Each facility referred to in clause (i) may, in-

stead of meeting the requirement under such clause, fulfill such other criteria as the Secretary is authorized to employ to achieve an engineering standard of security and degree of protection that is equivalent to the numerical perimeter distance setback described in such clause seeks to achieve.”; and

(ii) in subparagraph (B)—

(I) in clause (i)—

(aa) by striking “security considerations permit and”; and

(bb) by inserting “after taking account of any considerations the Secretary in his or her discretion considers relevant, which may include security conditions” after “national interest of the United States”;

(II) in clause (ii), by striking “(ii) CHANCERY OR CONSULATE BUILDING.—” and all that follows through “15 days prior” and inserting the following:

“(ii) CHANCERY OR CONSULATE BUILDING.—Prior”; and

(III) in clause (iii), by striking “an annual” and inserting “a quarterly”.

SEC. 9302. DIPLOMATIC SUPPORT AND SECURITY.

(a) **SHORT TITLE.**—This section may be cited as the “Diplomatic Support and Security Act of 2022”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) A robust overseas diplomatic presence is part of an effective foreign policy, particularly in volatile environments where a flexible and timely diplomatic response can be decisive in preventing and addressing conflict.

(2) Diplomats routinely put themselves and their families at great personal risk to serve their country overseas where they face threats related to international terrorism, violent conflict, and public health.

(3) The Department has a remarkable record of protecting personnel while enabling an enormous amount of global diplomatic activity, often in unsecure and remote places and facing a variety of evolving risks and threats. With support from Congress, the Department has revised policy, improved physical security through retrofitting and replacing old facilities, deployed additional security personnel and armored vehicles, and greatly enhanced training requirements and training facilities, including the new Foreign Affairs Security Training Center in Blackstone, Virginia.

(4) Diplomatic missions rely on robust staffing and ambitious external engagement to advance United States interests as diverse as competing with China’s malign in-

fluence around the world, fighting terrorism and transnational organized crime, preventing and addressing violent conflict and humanitarian disasters, promoting United States businesses and trade, protecting the rights of marginalized groups, addressing climate change, and preventing pandemic disease.

(5) Efforts to protect personnel overseas have often resulted in inhibiting diplomatic activity and limiting engagement between embassy personnel and local governments and populations.

(6) Given that Congress currently provides annual appropriations in excess of \$1,900,000,000 for embassy security, construction, and maintenance, the Department should be able to ensure a robust overseas presence without inhibiting the ability of diplomats to—

(A) meet outside United States secured facilities with foreign leaders to explain, defend, and advance United States priorities;

(B) understand and report on foreign political, social, and economic conditions through meeting and interacting with community officials outside of United States facilities;

(C) provide United States citizen services; and

(D) collaborate and, at times, compete with other diplomatic missions, particularly those, such

as that of the People's Republic of China, that do not have restrictions on meeting locations.

(7) Given these stakes, Congress has a responsibility to empower, support, and hold the Department accountable for implementing an aggressive strategy to ensure a robust overseas presence that mitigates potential risks and adequately considers the myriad direct and indirect consequences of a lack of diplomatic presence.

(c) ENCOURAGING EXPEDITIONARY DIPLOMACY.—

(1) PURPOSE.—Section 102(b) of the Diplomatic Security Act of 1986 (22 U.S.C. 4801(b)) is amended—

(B) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(C) by inserting after paragraph (3) the following:

“(4) to support a culture of risk management, instead of risk avoidance, that enables the Department of

State to pursue its vital goals with full knowledge that it is neither desirable nor possible for the Department to avoid all risks;”.

(2) BRIEFINGS ON EMBASSY SECURITY.—Section 105(a)(1) of the Diplomatic Security Act (22 U.S.C. 4804(a)) is amended—

(A) by striking “any plans to open or reopen a high risk, high threat post” and inserting “progress towards opening or reopening a high risk, high threat post, and the risk to national security of the continued closure or any suspension of operations and remaining barriers to doing so”;

(B) in subparagraph (A), by inserting “the risk to United States national security of the post’s continued closure or suspension of operations,” after “national security of the United States,”; and

(C) in subparagraph (C), by inserting “the type and level of security threats such post could encounter, and” before “security ‘tripwires’”.

(d) SECURITY REVIEW COMMITTEES.—Section 301 of the Diplomatic Security Act (22 U.S.C. 4831) is amended—

(1) in the section heading, by striking “**ACCOUNTABILITY REVIEW BOARDS**” and inserting “**SECURITY REVIEW COMMITTEES**”;

(2) in subsection (a)—

(A) by amending paragraph (1) to read as follows:

“(1) CONVENING THE SECURITY REVIEW COMMITTEE.—In any case of a serious security incident involving loss of life, serious injury, or significant destruction of property at, or related to, a United States Government diplomatic mission abroad (referred to in this title as a ‘Serious Security Incident’), and in any case of a serious breach of security involving intelligence activities of a foreign government directed at a United States Government mission abroad, the Secretary of State shall convene a Security Review Committee, which shall issue a report providing a full account of what occurred, consistent with section 304.”;

(B) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively;

(C) by inserting after paragraph (1) the following:

“(2) COMMITTEE COMPOSITION.—The Secretary shall designate a Chairperson and may designate additional personnel of commensurate seniority to serve on the Security Review Committee, which shall include—

“(A) the Director of the Office of Management Strategy and Solutions;

TITLE CII—REGIONAL OCEAN PARTNERSHIPS

SEC. 10201. FINDINGS; PURPOSES.

(a) FINDINGS.—Congress makes the following findings:

(1) The ocean and coastal waters and the Great Lakes of the United States are foundational to the economy, security, global competitiveness, and well-being of the United States and continuously serve the people of the United States and other countries as an important source of food, energy, economic productivity, recreation, beauty, and enjoyment.

(2) Over many years, the resource productivity and water quality of the ocean, coastal, and Great Lakes areas of the United States have been diminished by pollution, increasing population demands, economic development, and natural and man-made hazard events, both acute and chronic.

(3) The ocean, coastal, and Great Lakes areas of the United States are managed by State and Federal resource agencies and Indian Tribes and regulated on an interstate and regional scale by various overlapping Federal authorities, thereby creating a significant need for interstate coordination to enhance regional priorities, including the ecological and economic health of those areas.

(4) Indian Tribes have unique expertise and knowledge important for the stewardship of the ocean and coastal waters and the Great Lakes of the United States.

(b) PURPOSES.—The purposes of this title are as follows:

(1) To complement and expand cooperative voluntary efforts intended to manage, conserve, and restore ocean, coastal, and Great Lakes areas spanning across multiple State and Indian Tribe jurisdictions.

(2) To expand Federal support for monitoring, data management, restoration, research, and conservation activities in ocean, coastal, and Great Lakes areas.

(3) To commit the United States to a comprehensive cooperative program to achieve improved water quality in, and improvements in the productivity of living resources of, oceans, coastal, and Great Lakes ecosystems.

(4) To authorize Regional Ocean Partnerships as intergovernmental coordinators for shared regional priorities among States and Indian Tribes relating to the collaborative management of the large marine ecosystems, thereby reducing duplication of efforts and maximizing opportunities to leverage support in the ocean and coastal regions.

(5) To empower States to take a lead role in managing oceans, coastal, and Great Lakes areas.

(6) To incorporate rights of Indian Tribes in the management of oceans, coasts, and Great Lakes resources and provide resources to support Indian Tribe participation in and engagement with Regional Ocean Partnerships.

(7) To enable Regional Ocean Partnerships, or designated fiscal management entities of such partnerships, to receive Federal funding to conduct the scientific research, conservation, and restoration activities, and priority coordination on shared regional priorities necessary to achieve the purposes described in paragraphs (1) through (6).
